Facing the Warrior Within “The Retreat”

An Experiential Workshop

Spiritual Warriors are not what you think of as warriors. The Spiritual Warrior is not one who fights or takes another’s life. A Spiritual Warrior is one who combats the limitations of himself or herself, is a heroic being with a brave and courageous heart and is willing to take on his own ignorance of self; to come to a place of tenderness and vulnerability; A place of Self-Love, Strength, Determination and purpose of heart.

In this retreat, you will experience:

- **Transformation!**
- Removal of blocks (working with the subconscious)
- Clarity and Discernment on pursuing *your* purpose

NOTE: *Based on clients experiences and the work that comes forth*

You will gain:

- A measurable difference in days to come
 - Motivation / A Greater sense of self
 - Tools
- A deeper closeness & connection with Deity

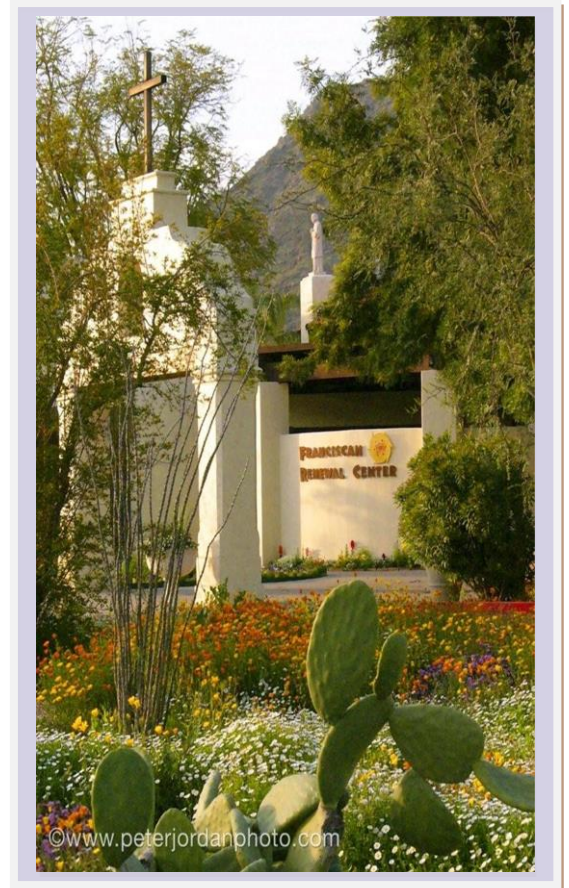

INCLUDES:
Workshop
Lodging
Meals

July 2017 Retreat Testimonial

"I feel that I have accomplished my intention for this retreat. I feel empowered. I feel confident that I am unleashing the power within. I have felt the power of my ability to heal with my thoughts when I am thinking; thoughts of love, forgiveness and communion. My understanding of God is in all of creation has increased. I am clearer now in knowing what it is that I am to do. I have all that I need to move forward with all the resources, the knowing, that have propelled me so far. This journey is a blessing. I accept all, the 'good' and the 'bad'. Everything that happens 'bad' was there to help me move forward to a greater realization of my purpose, Thank you Catherine" ~ C. West. Retired Educator
